

Metals and Inorganics Sectoral Approach list of participating consortia

This list includes the consortia as part of the Metals and Inorganics Sectoral Approach (MISA).

List updated 16/01/2020

MISA is a voluntary programme that is endorsed by metals and inorganics consortia by signing a framework for cooperation. The agreement includes a rolling action plan for 2018-2020, which aims to identify, by the end of 2020, any outstanding REACH and CLP standard information endpoints, as well as further information, supply chain communication or risk management needs, where relevant.

1. [Aluminium Reach Consortium](#)
2. [Arsenic Consortium](#)
3. [Cadmium REACH Consortium](#)
4. [Cobalt REACH Consortium \(CoRC\)](#)
5. [EuRIC](#)
6. [European Borates Association](#)
7. [REACH Boron Consortium](#)
8. [European Precious Metals Federation](#)
9. [Frit Consortium](#)
10. [Indium REACH Consortium](#)
11. [Inorganic Pigments Consortium](#)
12. [International Antimony Association i2a](#)
13. [International Lead Association](#)
14. [International Zinc Association](#)
15. Iron Oxides REACH Consortium
16. [ITIA International Tungsten Industry Association](#)
17. Lithium REACH Consortium
18. [Molybdenum Consortium](#)
19. [Nickel REACH Consortia](#)

20. [REACH Copper Consortium](#)
21. Copper Compound Consortium
22. [REACH Selenium and Tellurium Consortium](#)
23. [International Tin Association ITRI](#)
24. [Vanadium Consortium](#)
25. [MOZO Mixed Oxides & Zirconia Oxides Consortium](#)
26. [Rare Earth Compounds REACH Consortium](#)
27. [CB4REACH Consortium](#)
