A. GENERAL DESCRIPTION OF THE POSITIONS

ECHA mainly offers two different types of position: temporary agents and contract agents.

A.1. Temporary Agent positions

Temporary agent posts are classified in two function groups according to the nature and importance of the duties involved.

- Administrators function group (AD) covers 12 grades from AD 5 to AD 16 corresponding to technical, administrative, advisory, linguistic and scientific duties;
- Assistants function group (AST) covers 11 grades from AST 1 to AST 11 corresponding to executive, technical and clerical duties.

In general, a temporary agent contract has a five-year duration with the possibility of renewal for a definite period. If renewed for a second time, the contract will be for an indefinite period.

The probationary period for temporary agents is nine months.

A.2. Contract Agent positions

Contract agent posts are classified in four function groups according to the duties and responsibilities involved.

- Function group I corresponds to administrative support service tasks;
- Function group II corresponds to secretarial and office management tasks;
- Function group III corresponds to executive, drafting and accountancy tasks;
- Function group IV corresponds to administrative, scientific, advisory, and linguistic tasks.

The duration of contracts for contract agents is a maximum of three years, with the possibility of renewal for a definite period. If renewed for a second time, the contract will be for an indefinite period.

Contract agents recruited for more than one year have a probationary period of nine months.

B. ELIGIBILITY CRITERIA

The selection procedure is open to applicants who satisfy the following eligibility criteria, on the closing date for application.

B.1. General requirement

The applicant must:

- Be a national of a Member State of the European Union¹ or a national of the European Economic Area (Norway, Iceland, Liechtenstein);
- Enjoy full rights as a citizen;
- Have fulfilled any obligations imposed by the laws concerning military service;
- Produce the appropriate character references as to the suitability for the performance of the duties²;
- Be physically fit to perform their duties³;
- Have a thorough knowledge of one of the official languages of the European Union⁴ and a satisfactory knowledge of another such language to the extent necessary to perform your duties;
- Be able to communicate well in English, as this is the working language of ECHA;
- Be below the age at which staff of the EU is automatically retired, i.e. currently on the last day of the month in which the applicant reaches the age of 66⁵.

B.2. Qualifications

To be eligible for a specific profile and the related grade, applicants must have the required level of education, as defined in the vacancy notice.

Only qualifications issued by EU Member State authorities or EEA authorities and qualifications recognised as equivalent by the relevant EU or EEA Member State authorities will be accepted.

B.3. Professional experience

To be eligible for a specific profile and the related grade, applicants must have the professional experience as defined in the vacancy notice, if applicable.

¹ The Member States of the European Union are: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, The Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden.

² Before appointment, successful applicants will be required to produce an official document showing that they do not have a criminal record.

³ Before the appointment, successful applicants will be required to undergo a medical examination to ensure that they fulfil the requirements of Article 28(e) of the Staff Regulations of the Officials of the European Communities.

⁴ The languages of the EU are: Bulgarian, Croatian, Czech, Danish, Dutch, English, Estonian, Finnish, French, Irish, German, Greek, Hungarian, Italian, Latvian, Lithuanian, Maltese, Polish, Portuguese, Romanian, Slovak, Slovenian, Spanish, Swedish.

⁵ See Article 47(a) CEOS for Temporary Agents, applicable to Contract Agents by analogy, Article 119 CEOS.

Professional experience will be counted **from the date on which the applicant acquired the minimum qualification for access to the profile in question** (e.g. secondary certificate or post-secondary diploma for AST profiles, university degree for AD profiles).

Professional experience **must be in a domain of activity of the European communities** (e.g. jobs such as sports instructor, waiter or supermarket cashier will not be counted, unless of specific relevance to the post in question).

When calculating professional experience, only duly documented professional activity (i.e. remunerated employment or self-employment) is taken into account. **Part-time work** will be taken into account in proportion to the **percentage of full-time hours worked. Periods of education or training and unremunerated traineeships are not taken into account.** For post-graduate studies, duly documented periods of employment (e.g. as a part-time lecturer or researcher), or self-employment (e.g. consultancy work) will be taken into account. Periods during which the applicant was in receipt of a study grant will be generally considered as education rather than professional activity unless the applicant can provide evidence to the contrary.

For periods of **self-employment**, applicants will be required to provide evidence of the **type and duration of work in the form of service contracts, invoices, accounting statements, tax declarations, social security records**, etc. For **freelance translation work**, evidence of the total **number of pages translated** and the number of pages translated per hour should be provided.

Any given time period can be counted **only once** (i.e. if the applicant had a full-time job and did freelance consultancy work in the evenings and weekends, the days spent on the latter will not be added to the period spent on the former).

Statutory maternity leave and **compulsory military or alternative civil service** accomplished after obtaining the minimum qualification for access to the profile **are not discounted from the total professional experience.**

B.4. Documentary evidence

Applicants invited to an interview will be required to fill in a declaration confirming that information provided in their application is truthful.

Applicants that are placed on the reserve list will be required to provide copies or certified copies of the following documents:

- **A document proving citizenship** (e.g. passport);
- **Certificates attesting educational and professional qualifications**, in particular those giving access to the profile in question;
- **Documentary evidence of professional experience** gained after the date on which the qualification giving access to the specific profile was obtained. The documents should clearly indicate the start and end dates, whether remunerated, full or part-time, and the nature of the duties carried out. Moreover, applicants must always provide a copy of the latest pay slip.

Periods of employment that are not declared in the application or for which adequate documentary evidence is not provided upon placement on the reserve list will not be taken into account.

If an applicant is recruited, documents provided at the reserve list stage will be checked against originals at the latest on the first working day.

C. OVERVIEW OF SELECTION AND APPOINTMENT PROCEDURE

C.1. Admission to the selection procedure

Applications must be complete and validly submitted by the closing date for applications as specified in Section D "How to Apply". Applications that do not meet the above criteria will be rejected.

If, at any stage in the procedure, it is established that the information application is incorrect, the applicant will be disqualified from the selection.

C.2. Assessment of applications

Applicants admitted to the selection procedure will be assessed by a Selection Committee in an objective, impartial and transparent manner. The applications will be assessed against the criteria defined in Section 3 "Selection criteria" of the Vacancy Notice. Evidence of any of the assets listed will gain additional credit. The most suitable applicants will be invited to an interview.

During the selection procedure, the Selection Committee will consider only the information provided by the applicants in their application specific to the profile in question.

C.3. Interview and written tests

During the interview, the applicants will be assessed against the criteria defined in Section 4 "Interview" of the Vacancy Notice.

The interview will be held in English, but the knowledge of other languages may also be tested. Native English speakers will be tested for their second language skills.

In addition to the interview, applicants will undergo a practical test, in English, in the area of expertise required for the specific profile.

Applicants invited to an interview will receive an email invitation, with the date, time and location of the interview. Invited applicants will be required to sign a declaration confirming that the information provided in their application is truthful.

Subject to budgetary availability, the Selection Committee reserves the right to include other assessment steps in the selection process to determine which candidates are best suited to be placed on the reserve list. Furthermore, depending on the needs of each selection process, assessment steps may be organised remotely or may follow a different order than the one previously specified, for example, a written test exercise may be an eliminatory step before an interview.

C.4. Reserve list

Following the interview, the Selection Committee will assess the applicants' suitability for the specific profile on the basis of their performance in the interview and the practical test.

Applicants who are judged to be most suitable will be placed on a reserve list. The reserve list will remain open for a period of two years for temporary agent posts and one year for contract agent posts, with the possibility of extension.

Successful applicants will be required to provide documents concerning their nationality, academic qualifications and professional experience. Moreover, successful applicants will be

required to make a declaration of commitment to act independently in the public interest and to make an annual declaration with respect to any interests which might be considered prejudicial to their independence.

Moreover, before recruiting a member of staff, ECHA's Executive Director will examine whether the applicant has any personal interest which may impair their independence or any other conflicts of interest. To that end, the applicant, using a specific form, must inform the Executive Director of any actual or potential conflicts of interest. Applicants must confirm their willingness to do so in their application.

The European Chemicals Agency may recruit staff from the reserve lists during the period of validity of the lists. Where a post becomes available, the Agency may select applicants from the list, of the grade at which the position was published, and subject to suitability of the candidate's competencies to the post in question. If necessary, applicants on the reserve list may be invited to the Agency for a further interview.

Inclusion on the reserve lists does not imply any entitlement to employment in the Agency.

C.5. Selection Committee

For each selection procedure a Selection Committee will be appointed by the Executive Director of the Agency, consisting of three to five members.

Applicants are strictly forbidden to make any contact with the members of the Selection Committee, either directly or indirectly. Any infringement of this rule will lead to disqualification from the selection procedure.

C.6. Assistance from external consultants

The Selection Committee may be assisted by external consultants during the selection process. In such cases, applicants are required to cooperate with consultants duly mandated by the Agency. The consultants' role is limited to providing information and advice to the Selection Committee which retains all decision-making power.

C.7. Communication with applicants

Applicants will receive all communication and notices concerning the selection procedure by email. Applicants are responsible for checking their email regularly. The European Chemicals Agency declines all responsibility for failure on the part of applicants to respond to notices sent to their email. Applicants are also responsible for notifying ECHA in the event of any change in postal or email address.

Communication between applicants and the secretariat of the relevant Selection Committee should be sent in writing in English to the following address:
