1.1. Trade names of the product

Nippon Ant Bait Station 2

1.2. Authorisation holder

Name and address of the	Name	Vitax (Ireland) Limited	
authorisation holder	Address	Block 3, Harcourt Centre Harcourt Road D02 A339 Dublin Ireland	
Authorisation number	IE/BPA 70798		
R4BP 3 asset reference number	IE-0010584-0000		
Date of the authorisation	21/05/2015		
Expiry date of the authorisation	27/03/2025		

1.3. Manufacturer(s) of the biocidal products

Г

Name of the manufacturer

Address of the manufacturer

Location of manufacturing sites

Vitax Limited
Owen Street LE67 3DE Coalville United Kingdom
Owen Street LE67 3DE Coalville United Kingdom

1.4. Manufacturer(s) of the active substance(s)

Active substance	49 - Spinosad
Name of the manufacturer	Dow Agrosciences BV
Address of the manufacturer	Antwerp B-2650 Antwerp Belgium
Location of manufacturing sites	Confidential to manufacturer Confidential to manufacturer Confidential to manufacturer European Union

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Spinosad	Spinosad as a mixture of 50-95 % spinosyn A and 5-50 % spinosyn D.	Active Substance	168316-95-8	434-300-1	0,095

2.2. Type of formulation

RB - Bait (ready for use)		

3. Hazard and precautionary statements

Hazard statements	Harmful to aquatic life with long lasting effects. Contains 1,2-benzisothiazolin-3-one. May produce an allergic reaction.
Precautionary statements	Avoid release to the environment. Keep out of reach of children. Dispose of contents to a household waste recycling centre as hazardous waste.

4. Authorised use(s)

4.1 Use description

Use 1 - Non-professional use in and around domestic premises

Product type	PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)
Where relevant, an exact description of the authorised use	VII.1 Stored Product Protection / Food protection VII.2 Health protection VII.2 Health Protection
Target organism(s) (including development stage)	Scientific name: Hymenoptera: Formicidae: Common name: Ants including Lasius niger (Black garden ant) Development stage: Adults, imagines and larvae
Field(s) of use	Indoor
	Outdoor
	IV 1.3.2 Indoor use in/at households/private areas IV 2 outdoor use (around domestic premises)
Application method(s)	Bait application - V1 6 Bait application (in prefilled bait station)
Application rate(s) and frequencies	5 g bait per bait station - 100 - Apply one or two bait stations per ant colony, beside the any run. Effective for up to 1 month
Category(ies) of users	General public (non-professional)
Pack sizes and packaging material	Pre-filled polypropylene bait station containing 5g of bait formulation. Supplied in packs of 1, 2, 3 or 4 bait stations.

4.1.1 Use-specific instructions for use

Do not open bait box.	
Do not open bait box.	
Do not use where food, feed or water could become contaminated.	
There should be an interval of at least 7 days between successive 28-day treatment campaigns. When used outdoors, apply at most two bait stations.	
Effective for up to 1 month.	

4.1.2 Use-specific risk mitigation measures

Keep in a safe place.

Do not open bait box.

Do not use where food, feed or water could become contaminated.

There should be an interval of at least 7 days between successive 28-day treatment campaigns. When used outdoors, apply at most two bait stations.

Effective for up to 1 month.

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment
