Workshop on
Substance Brief Profiles

06 November 2014

Contents

- Workshop agenda and objectives
- Dissemination at ECHA
- Integrated approach
- Brief Profiles
- Where we are

Agenda

MORNING SESSION		
9:00	**1. Welcome and Introduction**	Mike Rasenberg
9:30	**2. Stakeholders consultations on Info Cards and Brief Profiles**	Janne Kilpinen Tiago Pedrosa
10:20	**3. Discussion on Agenda point 2.**	
10:50	Coffee Break	
11:10	**4. Promoting Data quality through Dialogue**	Panja Lehtonen
BREAK-OUT GROUPS		
11:30	**4. Break-out groups: Promoting Data quality through Dialogue**	All
13:00	Lunch	
AFTERNOON SESSION		
14:00	**5. Report back from break-out groups and discussion**	All
15:30	**6. ECHA dissemination website: latest developments**	Maurizio Roncaccia
16:00	**7. Brief Profiles next steps**	Eoin Brennan
16:30	Coffee Break	
17:00	**8. Wrap-up and final Conclusions**	Mike Rasenberg
17:30	**End of the workshop**	

Workshop Objectives

- Review the progress made during 2014,

- Discuss ideas for future developments
  (together and in break-out groups)

- Provide an overview of recent improvements made to the dissemination website

Dissemination

EU citizens should have access to information about chemicals to which they may be exposed, in order to allow them to make informed decisions about their use of chemicals.
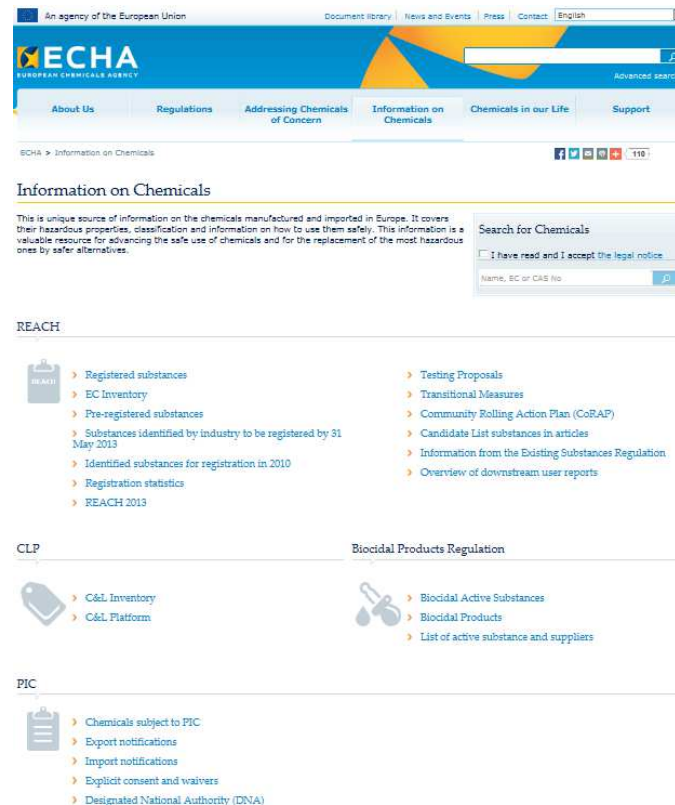

REACH Recital 117

Dissemination *recap*

Legal obligations → Improve usability *(accessibilty, Searchability)* → Integrate information *(simpler, user-friendly, tailored)*

2008	2009	2010	2011	2012	2013	2014	2015

Above timeline:
- Candidate list / Pre-Registration list
- 1st REG dossiers published (131)
- Connection to eChemPortal
- C&L inventory / Single point of access
- 1st CoRAP list / Extension of searches
- Biocides substances / Advanced search
- 99% of REG dossiers published
- Single point revamp / Brief profiles

Below timeline:
- MBAG on DISS established / 1st Roadmap 2009-2011
- Stakeholder Engagement Study
- DISS governance agreed

Information on chemicals State of play

- Registered substances information
  (> 12 700 substances; 49 100 dossiers;
  > 2 million study summaries)

- Classification and Labelling Inventory
  (EU harmonised classification for ~4 500
  substances; Classification for > 118 000
  substances; > 6 million notifications)

- Substances of Very High Concern (SVHC) (151 substances in the
  candidate list)

- Information on Active substances (64 substances) and Biocidal
  products

- EC Inventory (106 213 substances from EINECS, ELINCS and NLP)

- Dossier evaluation decisions

- Lists of restricted substances and substances subject to
  authorisation, substances planned for evaluation by MS (CoRAP), etc.

Dissemination vision

Provide ==tailored== access to all information on chemicals contained in ECHA ==databases== (in scope of REACH, BPR, CLP and PIC), in one ==single point of access==.

in order to:

- Fulfil legal obligations
- Provide meaningful and relevant information on chemicals
- Promote the safe use of chemicals
- Increase the transparency of and trustworthiness
- Promote quality of data
- Support citizens to make informed decisions on the safe use of chemicals

Legal basis in the EU chemicals Regulations

|	
REACH	
ECHA to make information on substances publicly available over the internet, free of charge; Brief Profiles of hazardous properties, labelling requirements and Community legislation available to citizens;	Articles 77(2)(e), 118 & 119 Recital 117
Biocidal products (BPR)	
ECHA to make publicly and easily available, free of charge, information on active substances, biocidal products, and non-confidential parts of assessment reports ;	Articles 66, 67 & 76
Classification, Labelling & Packaging (CLP)	
ECHA to make publicly accessible the C&L inventory;	Article 42
Export & Import of Hazardous chemicals (PIC)	
ECHA to make publicly available on its website the database on export and import of hazardous chemicals;	Article 6

Brief Profiles

Substance Brief Profiles - background

- **Stakeholders' engagement study**

Highlight the need for a user-friendly access to summarised information and download functionalities

- **REACH recital 117**

EU citizens should have access to **information** about **chemicals** to which they may be **exposed**, in order to allow them to make **informed decisions about** their **use** of chemicals. A transparent means of achieving this is to grant them free and easy access to basic data held in the Agency's database, including **brief profiles of _hazardous properties_, _labelling requirements_ and relevant Community legislation** including **_authorised uses and risk management measures_**. (…)

Infocard vs. Brief Profile

Info card (1st tier)	**Substance Brief Profile (2nd tier)**

• Allow users to further identify the substance	• Extend Info card information
	  • Overview of C&L inventory notified classifications
	  • Information on substance identity

• Provide high-level information to concerned citizens
  • substance's critical properties
  • Classification
  • uses and exposures
	• Provide information on:
	  • Physical chemical properties,
	  • Environmental fate and pathways
	  • Ecotoxicological Information
	  • Toxicological Information
	  • Study records type overview

• Provide an overview of main regulatory processes on-going for the substance	• Provide the information in downloadable format • Provide links to the source data

Where we are

Where we are

- Background information, specifications and draft mock-ups prepared and shared with stakeholders

- Consultation taking place (two workshops and two written consultations)

- IT development in place (analysis phase)

- Graphic design Interface to be started before the end of the year

Thank you!
