

National authorisation: Role of the Member State

Biocides Stakeholder's Day

25 June 2013

Anna Nordberg

Authorisation and Guidance

Swedish Chemicals Agency

Outline

- Experience of BPD
- Member State role under BPR
- Future challenges

Experience under BPD

- First authorisation
- Mutual recognition
 - Notification according to Article 4(4)

BPR

Biocidal products should be subject to authorisation

- **by CA for making available on the market and use within the territory of a Member State,**

or

- by the COM for making available on the market and use within the Union,

to ensure that only biocidal products that comply with the BPR are made available on the market.

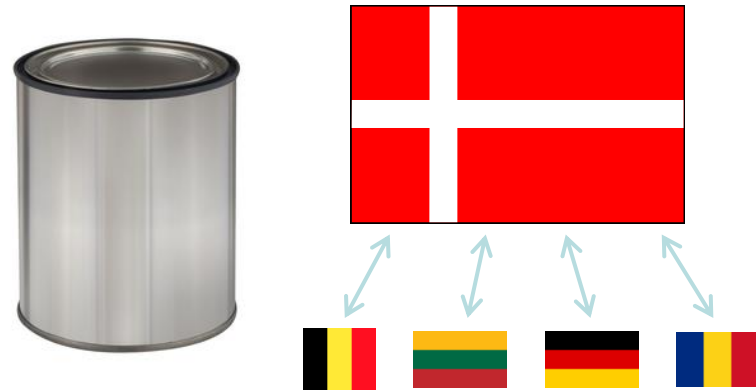

National authorisation

National authorisation

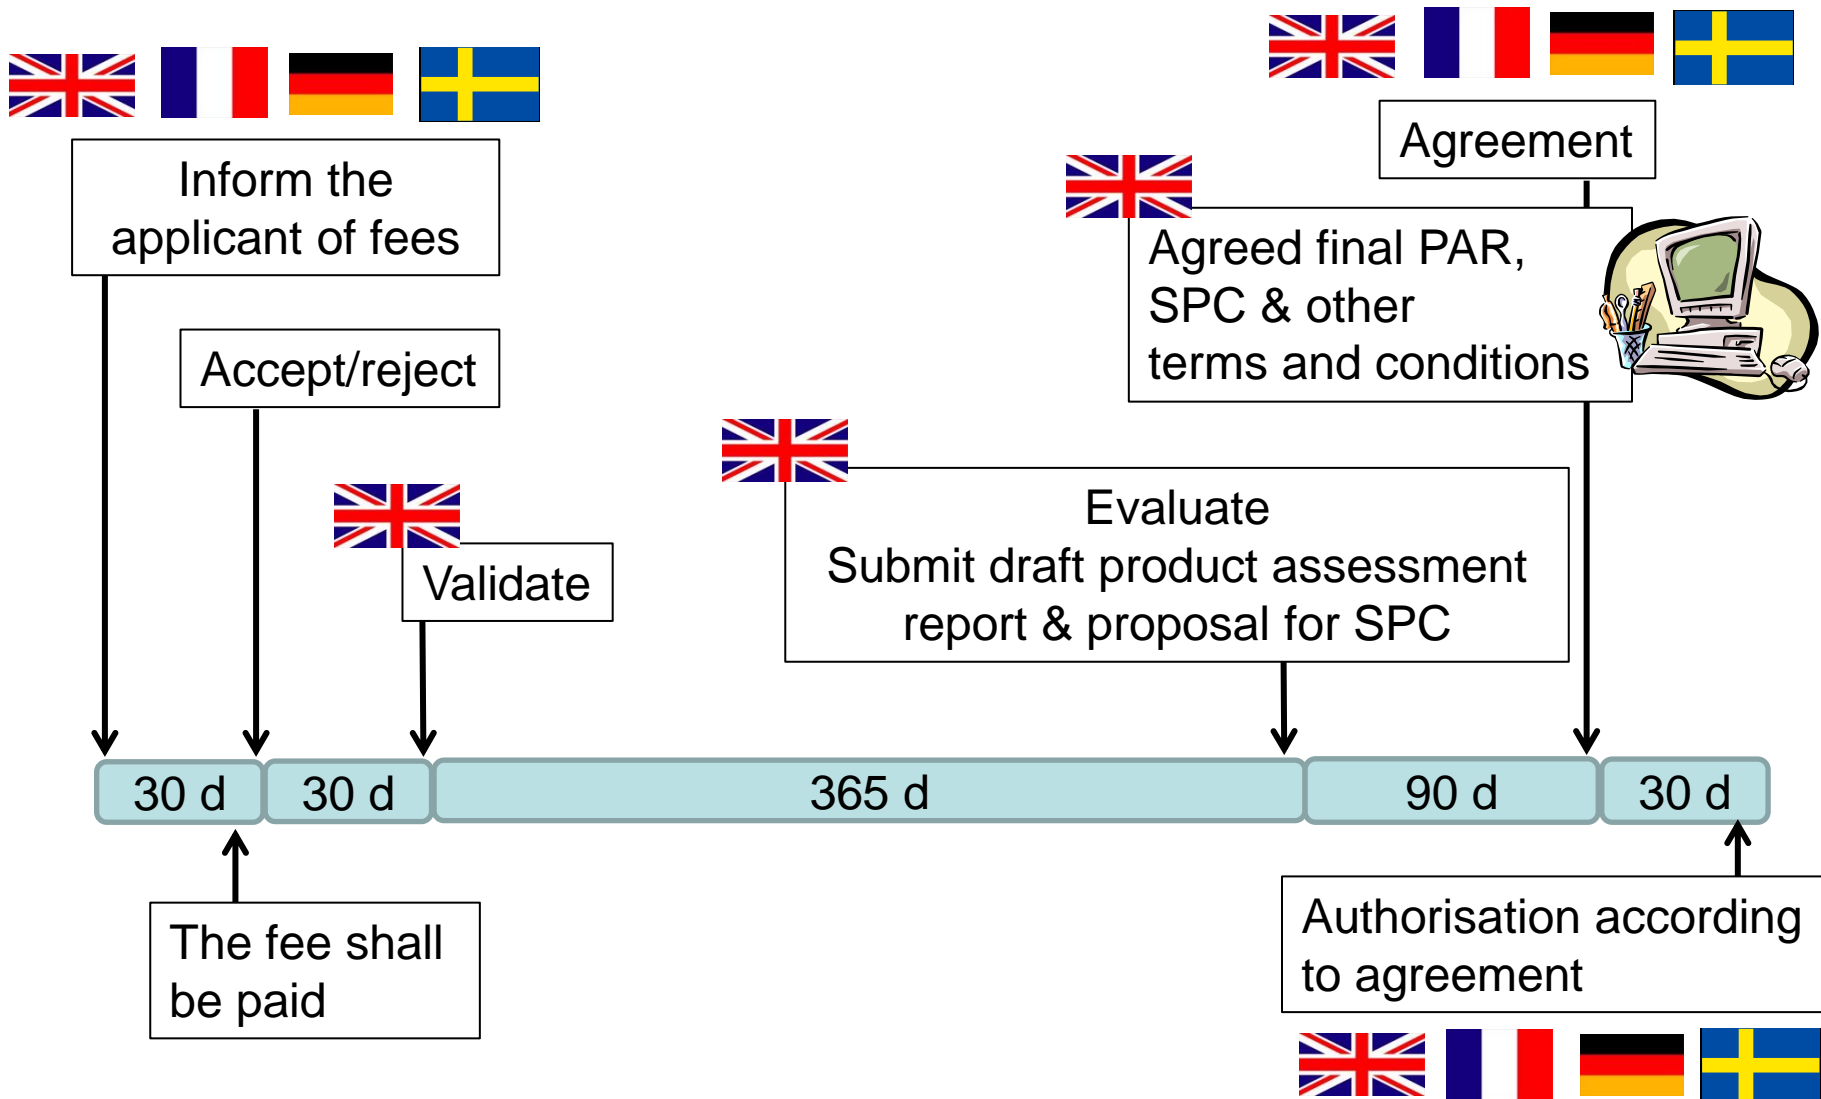

Mutual recognition

- in sequence
- in parallel

Simplified procedure

Ex. mutual recognition in parallel (Art. 34)

Review for mutual recognition

Review of

- assessment
- terms and conditions

Principle: All MS same terms & conditions

Objections regarding terms & conditions or the assessment

- Co-ordination group

Derogations from mutual recognition

- COM

Some of the other MS tasks

Guidance

Amend authorisations

Enforcement

Participation in EU groups and meetings

Future challenges

Harmonisation of terms and conditions

- During processes in parallel
- In the Coordination group
- Biocidal Products Committee

Harmonisation of technical issues not harmonised
at a.s. evaluation

- During processes in parallel
- In the Coordination group
- Biocidal Products Committee

Comparative assessment

Time frames

Thank you for your attention!
