New guidance package

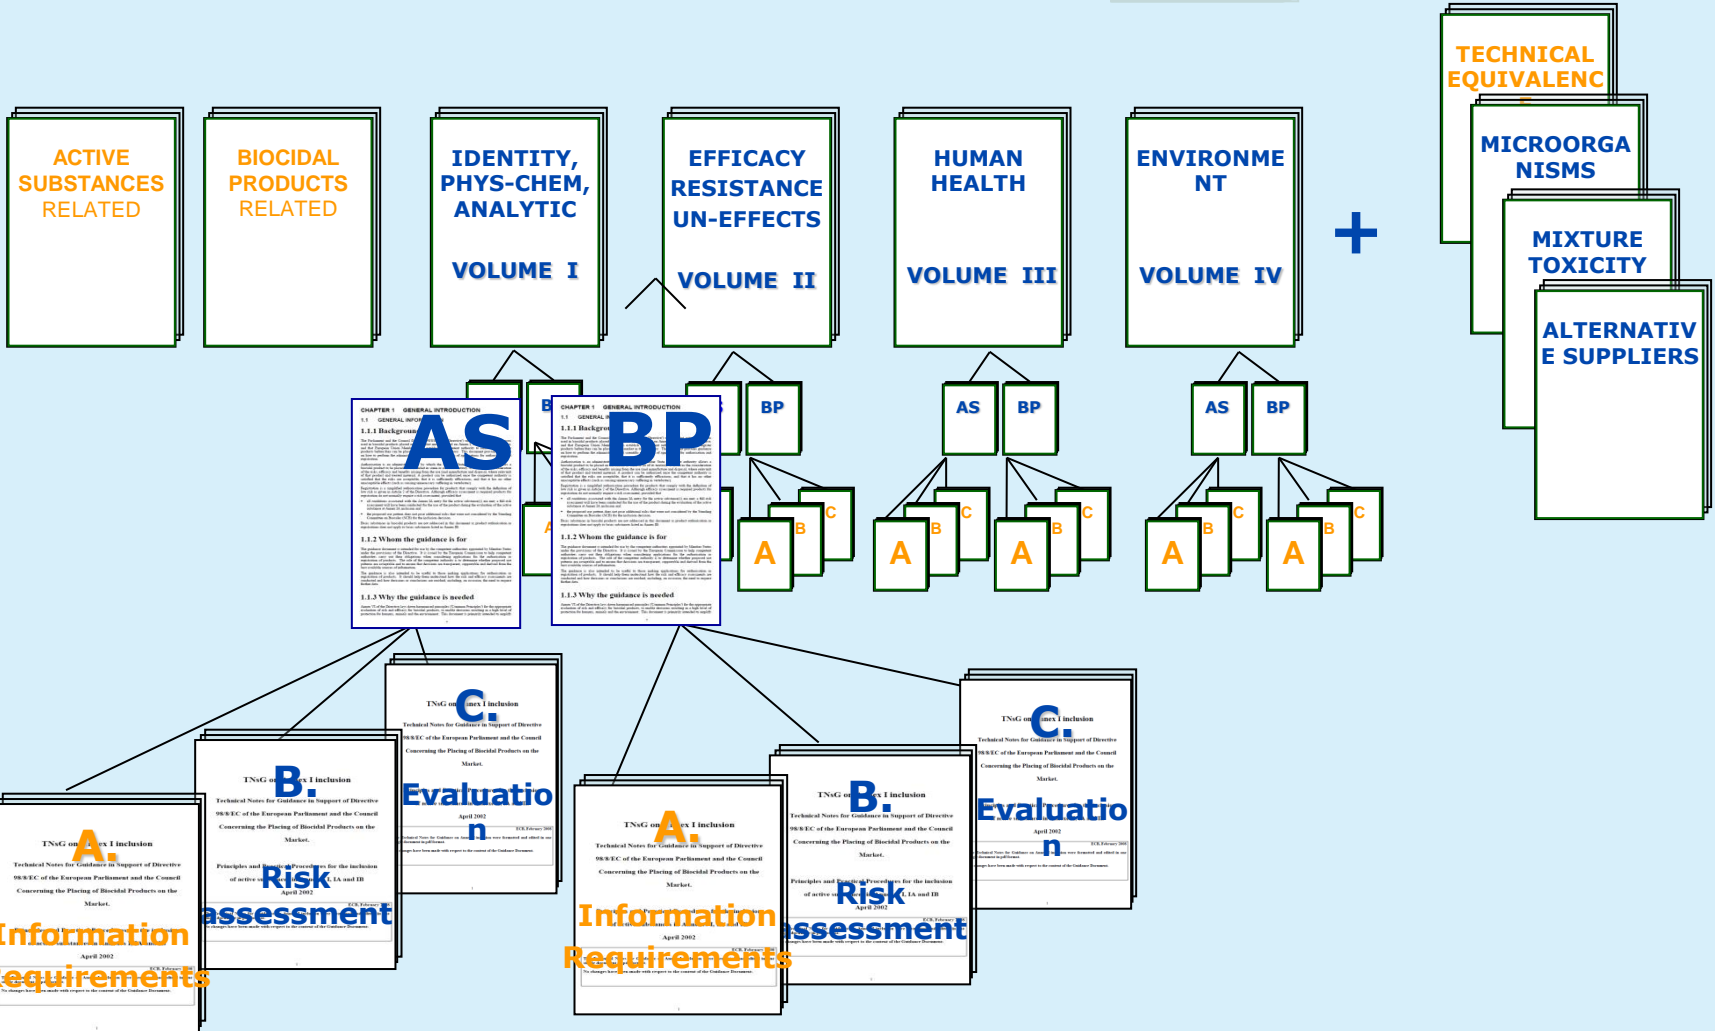

Self-explaining structure

Concise and harmonised information

Up-to-date

Priority guidance - covers new elements

Publishing schedule - 2013

- Guidance on information requirements ~ part A (July)
- Guidance on technical equivalence (before 1 September 2013)
- Guidance on alternative suppliers (before 1 September 2013)
- Guidance on procedural aspects in relation to active substances (Q4 2013 - Q1 2014)
- Guidance on procedural aspects in relation to biocidal products (Q4 2013 - Q1 2014)

Publishing schedule – 2014 and beyond

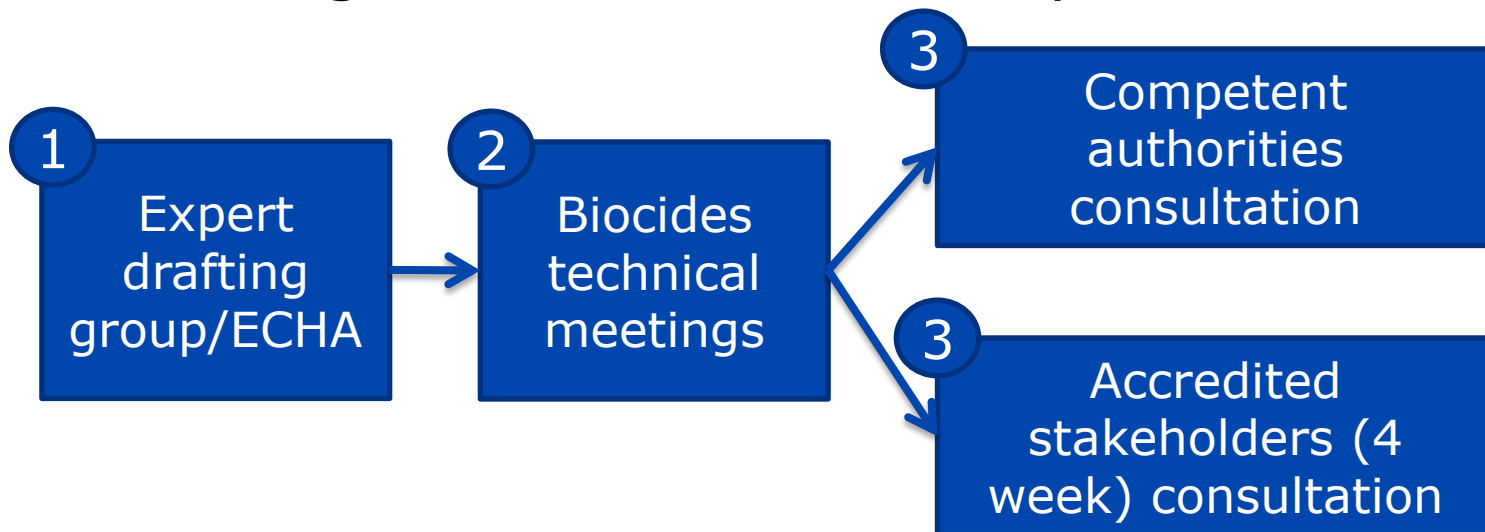

- Guidance on mixture toxicity
- Guidance on risk assessment – Human Health – part B
- Guidance on risk assessment – Environment– part B
- Guidance on micro-organisms
- Guidance on efficacy assessment- part B
- Guidance on physchem/analytical assessment- part B

Publishing schedule – 2014 and beyond

- Guidance on evaluation – part C of all 4 volumes
- Guidance on various specific topics transferred from the BPD framework as becomes available and depending on its importance (unless integrated in the overall BPR structure)

Stakeholder comments welcome

- Current guidance consultation procedure:

- Procedure after 1 January 2014 under construction

Consult BPD guidance in the absence of BPR guidance

- ...until all guidance in support of the BPR is made available (notwithstanding the references to the BPD and without prejudice to the scientific content)

CLP and some REACH guidance applicable

- REACH guidance (PBT assessment, QSAR, data sharing, etc.)

To summarise...

- ECHA in the role of the coordinator of the BPR guidance development
- Major work still to be done but overall comprehensive and concise guidance package to come
- BPD guidance valid under the BPR in the absence of the BPR guidance
- Accredited stakeholders' consultation

Thank you
