Paul Rasqué has been nominated by Luxembourg as a member of the Management Board of the European Chemicals Agency. He joined the Ministry of Environment in 2009 which has in the meantime been transformed into the Ministry of sustainable development and infrastructure. He currently holds the position of “Attaché de Gouvernement” in this Ministry and he is affected to the department of Environment. His field of work is mainly linked to the human environment and includes chemical policy at national and European level.

He is a chemist by education graduated from the Technical University of Kaiserslautern. Before he joined the Ministry, he worked as an industrial engineer. In May 2013, he was appointed by the Council of the European Union to be the Luxembourgish member of the Management Board of the European Chemicals Agency (ECHA) for the period from 1st June 2013 to the 31 May 2017.
