

Improving biocides data online

Biocides Day

24 October 2018

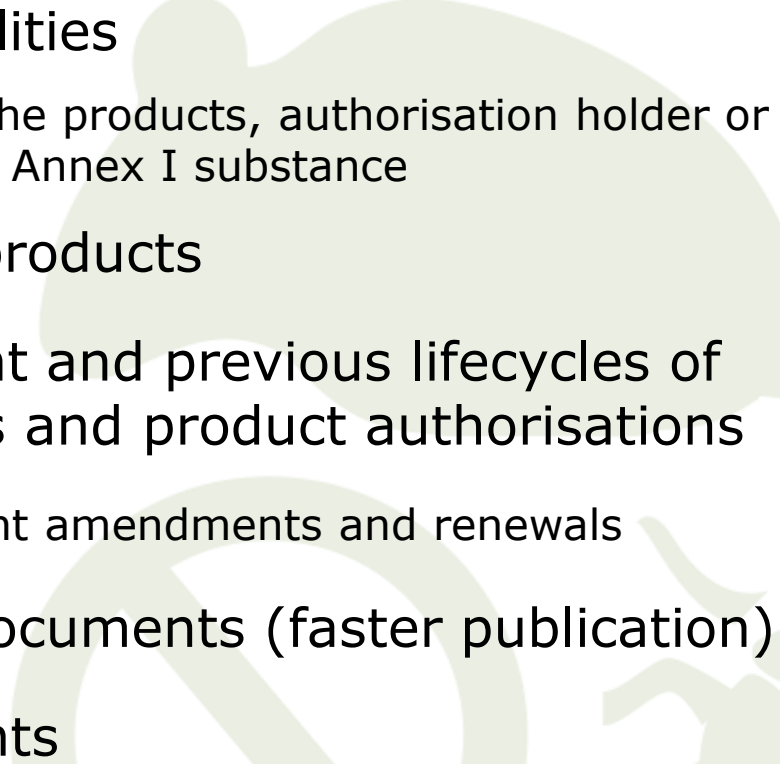

Karina Kubinakova
European Chemicals Agency

Biocides dissemination

- Improved communication of information on risks resulting from biocidal products
- Enriched biocides dissemination pages will be available from end November 2018
 - Biocidal active substances
 - Biocidal products

What will be available

- Extended search functionalities
 - e.g. by hazards and uses of the products, authorisation holder or authorisation type, search by Annex I substance
 - Further detail on biocidal products
 - Access to data from current and previous lifecycles of active substance approvals and product authorisations
 - initial applications, subsequent amendments and renewals
 - Automatic publication of documents (faster publication)
 - User interface improvements
- 

Main features: products

- Better overview of products on EU market
- Publication of trade names
- Extended search possibilities
- Possibility to compare biocidal products (target organism, uses and users, active substances with their concentrations etc.)

Product-type: PT14

[-] Active Substance details

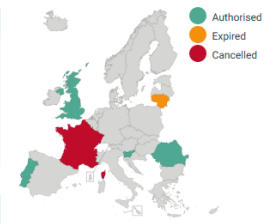

Substance name: Bromadiolone

IUPAC name: 3-[3-(4'-Bromo[1,1'-biphenyl]-4-yl)-3-hydroxy-1-phenylpropyl]-4-hydroxy-2H-1-benzopyran-2-one

EC number: 249-205-9

CAS number: 28772-56-7

BAS number: 12

SPC and other product documents

- Final SPCs, non-confidential assessment reports and decision documents will be published automatically from the submission tool, R4BP 3
 - Only SPCs uploaded or submitted after 1 Jan 2016 are subject to dissemination
 - New: Final SPC will not display the function of “other substances” or of “substances of concern”
 - Assessment reports and decision documents published if marked in R4BP 3 as “public”

Conclusions

- More information on active substances and biocidal products will be made available at the end of November
- If you have any concerns about confidential information in your active substance or product authorisation dossier, contact your evaluating authority

Thank you
