EUCLEF

European Union Chemicals
Legislation Finder

Your access point to EU
chemicals legislation

EUCLEF is an easy-to-use online service where you can search for information on how your chemicals are regulated across the EU.

It gives you free access to a comprehensive overview of EU chemicals legislation in one place.

HOW IT WORKS

EUCLEF is seamlessly integrated with ECHA's chemicals database.

You can search for a substance to find out how it is regulated by different pieces of EU chemicals legislation and what obligations you have.

You can also search by individual pieces of legislation to find out about their scope, exemptions, regulatory activities and lists of impacted substances, together with links to full legal texts in all EU languages.

WHAT YOU CAN FIND – 40 PIECES OF LEGISLATION AT YOUR FINGERTIPS

EUCLEF comes with 40 pieces of legislation and will be expanded with more.

It includes a wide range of legislation from pesticides, water standards, industrial emissions, and waste, to EU ecolabel, food contact materials, worker safety, toys, and cosmetics.

GET ADVICE ON YOUR OBLIGATIONS

If you need help clarifying your obligations or you have a question about the different pieces of EU chemicals legislation in EUCLEF, contact our regulatory advice service. It is free-of-charge and helps you make informed business decisions.
