

VIRICIDAL PRODUCT AUTHORISED IN SPAIN

As a consequence of the health emergency, the Government of Spain stated the alarm status laid down Royal Decree 436/2020 due to the spreading of coronavirus SARS-CoV-2 and taking into account the recommendation is to disinfect surfaces in order to stop the transmission between people. Please, see the following tables which show the biocidal product authorised in Spain against virus which have demonstrated efficacy against virus according to the standard method EN 14476.

PT 2 (Surface and aerial disinfection)

Name of Biocidal product	Authorisation Number	Active Substance	Category(ies) of users	Application method(s)	BPR/National Register
Vaprox® Hydrogen Peroxide Sterilant	ES/MRF(NA)- 2019-02-00622-1- 1	Hydrogen peroxide 35%	- Trained Professional	<ul style="list-style-type: none">Used for the disinfection of non-porous surfaces, materials, equipment and furniture which are not used for direct contact with food or feeding stuffs, within sealed precleaned enclosures in industrial, commercial and institutional settings. Disinfection by a Vaporized Hydrogen Peroxide (VHP) Unit.	BPR
Vaprox® 59 Hydrogen Peroxide Sterilant	ES/MRF(NA)- 2019-02-00622-2- 1	Hydrogen peroxide 59%	- Trained Professional	<ul style="list-style-type: none">Used for the disinfection of non-porous surfaces, materials, equipment and furniture which are not used for direct contact with food or feeding stuffs, within sealed precleaned enclosures in industrial, commercial and institutional	BPR

				settings. Disinfection by a Vaporized Hydrogen Peroxide (VHP) Unit.	
RELY+ON VIRKON	20-20/90-01562	Pentapotassium bis(peroxymonosulphate) bis(sulphate) 49.7%	Professional	<ul style="list-style-type: none"> Used for the disinfection of surfaces and equipment by spraying; dipping and mopping with diluted product in water. 	National
			Trained profesional	<ul style="list-style-type: none"> Aerial disinfection by fogging with diluted product in water. 	
OX-VIRIN	15-20/40/90-02518	Hydrogen peroxide 25%, Peracetic acid 5%, acetic acid 8%	Professional	<ul style="list-style-type: none"> Used for the disinfection of surfaces and equipment by spraying; dipping and mopping with diluted product in water. 	National
			Trained profesional	<ul style="list-style-type: none"> Aerial disinfection by fogging with diluted product in water. 	
SANITAS PROCSAN	17-20/40/90-05489	Didecyl dimethyl ammonium chloride (DDAC) 6.9%	Professional	<ul style="list-style-type: none"> Used for the disinfection of surfaces and equipment by spraying; dipping and brushing with diluted product in water. 	National
DESINFECTANTE CONEJO	18-20/40/90-05710	Active chlorine released from sodium hypochlorite 4.2%	General Public	<ul style="list-style-type: none"> Used for the disinfection of surfaces and equipment with diluted product in water. 	National
LONZAGARD DR 25 aN	20-20/40/90-06238	Didecyl dimethyl ammonium chloride (DDAC) 6.9%	Professional	<ul style="list-style-type: none"> Used for the disinfection of surfaces and equipment by spraying; dipping, mopping and brushing with diluted product in water. 	National
SANYTOL DESINFECTANTE	17-20/40/90-06255	Biphenyl-2-ol 0.4%, Ethanol: 30.6%	General public and professional	<ul style="list-style-type: none"> Used for the disinfection of surfaces and textiles by spraying. 	National

HOGAR Y TEJIDOS			Trained professional	<ul style="list-style-type: none"> Aerial disinfection by spraying 	
ANPICLOR 150	18-20/40/90-06412	Active chlorine released from sodium hypochlorite 13%	Professional	<ul style="list-style-type: none"> Used for the disinfection of surfaces by spraying or manual washing with diluted product in water. 	National
OXIVIR PLUS	13-20/40/90-06743	Salicylic acid 2.5%, Hydrogen peroxide 6.36%,	Trained professional	<ul style="list-style-type: none"> Used for the disinfection of surfaces by spraying or mopping with diluted product in water. 	National
OXIVIR PLUS SPRAY	13-20/40/90-06796	Salicylic acid 0.11%, Hydrogen peroxide 0.3%	Trained professional	<ul style="list-style-type: none"> Used for the disinfection of surfaces by spraying with ready to use product and then cleaning with a cloth 	National
OXIVIR PLUS Jflex	14-20/40/90-07086	Salicylic acid 2.5%, Hydrogen peroxide: 6.36%	Trained professional	<ul style="list-style-type: none"> Used for the disinfection of surfaces and equipment by spraying, clothing or mopping with diluted product in water 	National
ACTIV B40 NEW	15-20/40/90-07745	Alkyl (C12-16) dimethylbenzyl ammonium chloride (ADBAC/BKC (C12-16)) 7.28%,	Trained professional	<ul style="list-style-type: none"> Used for the disinfection of surfaces and equipment by spraying, clothing or mopping with diluted product in water 	National
OX-VIRIN PRESTO AL USO	15-20/40/90-07783	Hydrogen peroxide 0.2%, Peracetic acid 0.05%	General public and profesional	<ul style="list-style-type: none"> Used for the disinfection of surfaces and equipment by spraying with ready to use product. 	National
			Trained professional	<ul style="list-style-type: none"> Aerial disinfection by spraying or fogging with ready to use product. 	
PASTILLAS CLEANPILL	16-20/40/90-07974	Sodium dichloroisocyanurate dihydrate: 81%	Professional	<ul style="list-style-type: none"> Used for the disinfection of surfaces and equipment by washing, spraying, dipping or circulation before 	National

				water dilution.	
GARDOBOND ADDITIVE H7315	16-20/40/90- 08117	Didecyldimethylammonium chloride(DDAC) 7%,	Professional	<ul style="list-style-type: none"> Used for the disinfection of surfaces and equipment by clothing or mopping or foaming with ready to use product. 	National
ACTICIDE C&D 06	16-20/40/90- 08304	Alkyl (C12-16) dimethylbenzyl ammonium chloride (ADBAC/BKC (C12-16))5%, Didecyldimethylammonium chloride(DDAC) 5%	Professional	<ul style="list-style-type: none"> Used for the disinfection of surfaces and equipment by spraying, dipping or manual washing with diluted product in water. 	National

Sure Instant Hand Sanitizer	Lactic Acid	EU-0016940-0000	- Professional Trained professional	BPR

In addition to biocidal product mentioned above, it should be noted that the bleach has been recommend for disinfection in different national protocols as well as in the WHO recomendations due to its virucide activity. In this sense, the bleach available on the market and used for surface disinfection must comply with existing national legislation.

As a consequence of the health emergency, and in order to avoid a possible shortage of disinfectants, some exceptional measures has been applied taking into account two derogations of article 55.1 of Regulation 528/2012 sent by ES CA to the Commission. This table included biocidal products authorised under this procedure during a limit period with active substances approved as biocides.

Tabla. Authorised biocidal products according to derogation article 55.1 of BPR

Active substance	Name of the biocidal product	Product type	Holder	Derogation
Propan-1-ol	Solución hidroalcohólica Biomca 1-Propanol	1	Biomca Química	Article 55.1 of BPR
Propan-2-ol	Solución hidroalcohólica Biomca 2-Propanol	1	Biomca Química	Article 55.1 of BPR
Propan-2-ol	Protectol® schützt (I)	1	Basf Española	Article 55.1 of BPR
Propan-2-ol y Propan-1-ol	Calgonit Des-H	1	Calvatis	Article 55.1 of BPR
