## Today's agenda

- New approach to **re-use data** submitted by others to ECHA:  
Simplified SCIP notification & Referencing
- SCIP IT user group **Survey**
- **Format change** package release
- Service to service (S2S) update

# S2S and re-use of data strategies

SCIP IT user group

# S2S status update

- **Summer 2020:** S2S API will include SCIP number as a response after the first submission of an article by one Legal entity
- NEW feature: **GET LIST OF EVENTS**

This service is used to retrieve events related to submissions made by a company. It is typically performed after the submission of one or more dossier and can be used for the following purposes:

To track the submission status of multiple submissions using a single call as an alternative of issuing multiple calls to the "Get submission report" per submitted dossier.

Request URL	The request URL including the offset and limit as optional query parameters, i.e. <a href="https://api.ecs.echa.europa.eu/submission/events">https://api.ecs.echa.europa.eu/submission/events</a> ?offset=<offset>&limit=<limit> <ul style="list-style-type: none"><li>- offset (default value is '0'): it defines the starting event</li><li>- limit (default value is '1000'): it defines the maximum number of events returned in the response. When not provided or provided value exceeds '1000', the default value applies.</li></ul>
Response: 200	The service is found and the response includes the list of events

# Survey summary

SCIP IT user group

Clara Rueda

## **SCIP IT user group SURVEY**

- Thank you for your interesting feedback !!
- 10 participants answer the survey
- Different opinion regarding the implemented tools
- High value suggestions in different aspects (experience using the tools, Webpage, supporting documents, tools improvements)
- High differences on level of doubts (Basic to advance)
- High number of questions included in the survey

## IT user group

- Overall positive opinion
- More interaction and **collaborative approach** suggested.

### **IMPROVE on the interaction from participants**

- Show in the group how you are using the tools, what are your challenges with the tools? Practical session?
- Share examples and approaches: KEY to current open discussions. ECHA will keep this examples confidential
- Share is simple: send us the i6z file or the submission number.
- Presentation on specific topic meetings

## NEXT steps

- Specific sessions (planned):
  - Clarification Information requirements (e.g article categories and material categories)
  - Service to service (S2S)
- Take into account many of your suggestions in all the aspects:
  - SCIP Webpage under assessment for final release on October 2020
  - Supporting documents: Under assessment final documents and possible translations.
  - Possible new improvements in the tools

Send an email if you  
are interested in  
**participate!**

## Important

- IUCLID and ECHA Submission Portal is ready in prototype mode!!
- S2S:
  - ✓ The service is ready,
  - ✓ The harmonized format is ready (planned changes shared)
  - ✓ Current service allow to **test connectivity** and to perform and **integration test**

If you are facing problems to use it contact ECHA.
- Review our website

# Next SCIP events

SCIP IT user group
