

Justification for removing a substance from CoRAP prior to evaluation

Substance Name (public name): diiron tris(sulphate)

EC Number: 233-072-9

CAS Number: 10028-22-5

Authority: Lithuanian Environmental Protection Agency

Date: 19/03/2019

The priority for evaluating the substance has been reconsidered based on:

<input checked="" type="checkbox"/>	The initial hazard ground of concern has been verified and considered of low priority
<p><i>The initial hazard ground of concern for diiron tris(sulphate) was based on suspected sensitization properties of the substance. Furthermore, the iron sulphate itself for which Harmonised classification and labelling is applied and in general iron salts are not causing this concern. The classification of diiron tris(sulphate) as skin sensitizing could be caused by the nickel (Ni) impurity with the specific concentration limit of ≥ 0.01 % w/w. Consequently, there are sufficient hazard data available for diiron tris(sulphate) and nickel to address the concern and advise for the safe use. Therefore, Environmental Protection Agency has an opinion, that evaluation of diiron tris(sulphate) is no longer required.</i></p>	

<input type="checkbox"/>	The initial exposure/risk ground of concern has been verified and considered of low priority
<ul style="list-style-type: none"> • <i>Indicate the initial exposure/risk ground of concern (e.g. wide dispersive use, consumer use, high RCR, as presented in chapter 5.3 of the CoRAP justification document)</i> • <i>Provide the reasons for reconsidering their relevance.</i> 	

<input type="checkbox"/>	The generation of information under Substance Evaluation is considered of low priority because
	<input type="checkbox"/> Already ongoing or implemented regulatory risk management process(es) <i>Specify which process(es) and explain, e.g. compliance check, substance evaluation for a larger group, restriction, SVHC identification, others</i>
	<input type="checkbox"/> Registrants' (voluntary) action addresses concern <i>Specify</i>
	<input type="checkbox"/> Other: <i>Specify</i>
