

Summary of product characteristics for a biocidal product

Product name: NYNA D+ PATE

Product type(s): PT14 - Rodenticides (Pest control)

Authorisation number: 1675-3, 1675-5; 1675-6

R4BP 3 asset reference number: BG-0010307-0000

| STOP DIFE PASTA 50 |
| Плъхостоп паста |

1.2. Authorisation holder

| | | |
|--|------------------------|--|
| Name and address of the authorisation holder | Name | TRIPLAN SA |
| | Address | BP 258 LA POSTE FRANCAISE AD500 ANDORRA LA VELLA France |
| Authorisation number | 1675-3, 1675-5; 1675-6 | |
| R4BP 3 asset reference number | BG-0010307-0000 | |
| Date of the authorisation | 23/02/2012 | |
| Expiry date of the authorisation | 01/07/2024 | |

1.3. Manufacturer(s) of the biocidal products

| | |
|---------------------------------|--|
| Name of the manufacturer | CAUSSADE |
| Address of the manufacturer | 4-8 Rue de Romorantin 41300 Salbris France |
| Location of manufacturing sites | 4-8 Rue de Romorantin 41300 Salbris France |

Name of the manufacturer

AEDES PROTECTA

Address of the manufacturer

75 rue d'Orgemont 95210 SAINT-GRATIEN France

Location of manufacturing sites

LIEU DIT DOUILLAC 81310 PARISOT France

Name of the manufacturer

IRIS

Address of the manufacturer

1126A, Avenue du Moulinas, Route de Saint-Privat 30340 SALINDRES France

Location of manufacturing sites

1126A, Avenue du Moulinas, Route de Saint-Privat 30340 SALINDRES France

Name of the manufacturer

FARMAVIT OOD

Address of the manufacturer

Bul Tsar Boris III, n°63, Office n°1 1612 SOFIA Bulgaria

Location of manufacturing sites

Industrialna str.2 - Pleven District 5960 GULIANTSI Bulgaria

Name of the manufacturer

INDUSTRIALCHIMICA SRL

Address of the manufacturer

VIA SORGAGLIA 40 35020 ARRE (PD) Italy

Location of manufacturing sites

VIA SORGAGLIA 40 35020 ARRE (PD) Italy

1.4. Manufacturer(s) of the active substance(s)

Active substance

26 - Difenacoum

Name of the manufacturer

PM Tezza SRL

Address of the manufacturer

22, Via III Ponti 37059 Zevio Italy

Location of manufacturing sites

22, Via III Ponti 37059 Zevio Italy

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

| Common name | IUPAC name | Function | CAS number | EC number | Content (%) |
|-------------|--|------------------|------------|-----------|-------------|
| Difenacoum | 3-(3-biphenyl-4-yl-1,2,3,4- tetrahydro-1-naphthyl)-4-hydroxycoumarin | Active Substance | 56073-07-5 | 259-978-4 | 0,005 |

2.2. Type of formulation

RB - Bait (ready for use)

3. Hazard and precautionary statements

Hazard statements

May damage the unborn child.
May cause damage to organs (blood) through prolonged or repeated exposure .

Precautionary statements

Keep out of reach of children.
Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.
Do not breathe dust.
Do not get in eyes, on skin, or on clothing.
Do no eat, drink or smoke when using this product.
Avoid release to the environment.
Wear protective gloves.
IF exposed or concerned: Get medical attention.

IF SWALLOWED: Immediately call a POISON CENTER or a doctor.

Get medical attention if you feel unwell.

Store locked up.

Dispose of contents to local regulation (respecting the standards of application).

4. Authorised use(s)

4.1 Use description

Use 1 - For professional users

Product type

PT14 - Rodenticides (Pest control)

Where relevant, an exact description of the authorised use

-

Target organism(s) (including development stage)

Scientific name: *Mus musculus*
Common name: House mouse
Development stage: Adults

Scientific name: *Mus musculus*
Common name: House mouse
Development stage: Juveniles

Scientific name: *Rattus norvegicus*
Common name: Brown rat
Development stage: Adults

Scientific name: *Rattus norvegicus*
Common name: Brown rat
Development stage: Juveniles

Scientific name: *Rattus rattus*
Common name: Roof rat
Development stage: Adults

Scientific name: *Rattus rattus*
Common name: Roof rat
Development stage: Juveniles

Field(s) of use

Indoor

The product is applicable inside buildings.

Application method(s)

Method: Bait application

Detailed description:

The product must be placed in bait boxes only.

Application rate(s) and frequencies

Application Rate: For mice - 3 sachets of 10 g (30 g) per bait box at a distance of 2 - 4 meters depending on the level of infestation. For rats - 18 sachets of 10 g (180 g) per bait box at a distance of 5 - 10 meters depending on the level of infestation.

Dilution (%): -

Number and timing of application:

4.1.1 Use-specific instructions for use

4.1.2 Use-specific risk mitigation measures

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

5. General directions for use

5.1. Instructions for use

Ready-to-use bait in 10 g individual bags, to be placed in bait boxes only.
Do not treat surfaces and furniture in contact with food for humans or animals.
The baiting boxes must be securely placed to avoid the risk of ill-treatment, indigestion by children or pets or their dispersion in the environment by rodents.
Bait boxes are to be placed in rodent-infested areas and places, near rodent holes, where they are to be moved and where they are most frequented.
The biocidal product is not designed for permanent use; treatment must continue for a maximum of 6 weeks. Do not use for permanent baits.

5.2. Risk mitigation measures

The bait boxes containing the bait must be checked and reloaded a few times after the initial loading, then every 7 days in case of consumption or bait damaged or stained.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Do not treat surfaces and furniture in contact with food for humans or animals.
The baiting boxes must be securely placed to avoid the risk of ill-treatment, indigestion by children or pets or their dispersion in the environment by rodents.
Antidote: Vitamin K1 (to be taken under medical supervision).

5.4. Instructions for safe disposal of the product and its packaging

Remains of baits not consumed or deteriorated must be collected and disposed of safely as hazardous waste in accordance with the requirements of national legislation.
Dead rodents must necessarily be collected in well-closed plastic double bags and transferred for preservation / destruction in the animal by-products disposal centers, registered by the Food Prevention Directorates (ОДБХ), within the meaning of the 'art. 259, al. 1 of the law on the veterinary medical activity (ЗВМД) or outside the centers registered by ОДБХ to the respect of the conditions and the procedures defined in the order in view of art. 259, al. 3 of the ЗВМД.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Shelf-life : 2 years

6. Other information
