

AUTHORISATION NUMBER: IE/BPA 70337

EUROPEAN COMMUNITIES (AUTHORISATION, PLACING ON THE MARKET,  
USE AND CONTROL OF BIOCIDAL PRODUCTS)  
REGULATIONS

CERTIFICATE OF AUTHORISATION

The Competent Authority for Biocides in Ireland, pursuant to the provisions of Regulation (EU) No 528/2012 of the European Parliament and of the Council concerning the making available on the market and use of biocidal products, as amended by Regulation (EU) No 334/2014, and European Union (Biocidal Products) Regulations, 2013, (S.I. 427 of 2013), grants authorisation to:

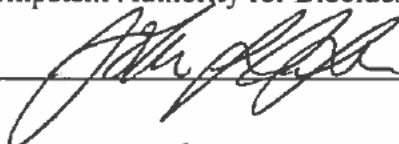

**W. Neudorff GmbH KG**  
**An der Mühle 3**  
**31860**  
**Emmerthal**  
**Germany**

to make available on the market in Ireland, the biocidal product:

**Raid Ant Bait**

subject to the conditions detailed in the Annexes to this certificate.

=====  
Authorisation granted on behalf of the Competent Authority for Biocides in Ireland by

  
\_\_\_\_\_  
  
\_\_\_\_\_

Pesticide Control Division (PCD)

**Date of authorisation: 31 October 2014**

Official Stamp:

## **ANNEX I**

### **Conditions and Product Summary**

This authorisation may be subject to review in accordance with Regulation (EU) No 528/2012, as amended by Regulation (EU) No 334/2014, or the European Union (Biocidal Products) Regulations, 2013, (S.I. 427 of 2013). The outcome of such a review may lead to amendments to or the revocation of this authorisation.

The following conditions apply:

1. This product shall **not** be used as a tracking poison, shall be ready-to-use and shall contain an aversive agent and/or dye.
2. Product may **not** be made available on the market or used in the Ireland unless it complies with the Annexes of this authorisation.
3. The requirements and conditions, specified in the Annexes, of this authorisation may **not** be altered without prior approval of modifications by the Irish Competent Authority for Biocides in Ireland. Where any amendments are made to the original authorisation in another Member State, the Irish Competent Authority for Biocides in Ireland must be informed by the Authorisation Holder.
4. The holder of this certificate for authorisation must inform or provide the Irish Competent Authority for Biocides with any new or requested information/data, respectively, that shows this biocidal product and/or any of its active substances cause or may cause an adverse effect on human or animal health, ground water or the environment.
5. All product made available on the market in Ireland must comply with the classification, labelling and packaging requirements established in: Article 69 of Regulation (EU) No 528/2012; S.I. 624 (2001) transposing Directive 99/45/EC; the Chemicals Act 2008 (as amended) transposing Regulation (EC) No 1272/2008; and the Labelling and Safety Data Sheet Annex detailed in this certificate.
6. All biocidal products advertised must comply with Article 72 of Regulation (EU) No 528/2012.
7. A printed copy of the Irish label in accordance with the Annexes of this authorisation must be submitted to the Irish Competent Authority for Biocides prior to any product being made available on the market in Ireland. All product labels must carry the authorisation number of the form: IE/BPA 70337.
8. Safety Data Sheets (SDS) for the biocidal product(s) shall be prepared and made available in accordance with Article 70 of the Biocidal Products Regulation 528/2012 (as amended). Relevant sections of the SDS must be updated post-authorisation in accordance with Annex II of the authorisation certificate. In particular, Section 15 of the SDS should be updated to contain the authorisation number IE/BPA 70337. The SDS must be submitted to the Irish Competent Authority for Biocides and the National Poisons Information Centre of Ireland <http://www.poisons.ie/manufacturers.asp> before the product is made available on the market for sale or use.

9. On an annual basis, details of the quantities of this product (by pack size) manufactured in Ireland, imported into Ireland and/or exported from Ireland must be submitted to the Irish Competent Authority for Biocides by 31 January of the following year.
10. Fees are payable for the maintenance of the product on the Register of Biocidal Products and shall be paid by the 31<sup>st</sup> December of the following year and each year thereafter.

**ANNEX II****Summary of Product Characteristics (SPC) for a biocidal product****1. Administrative information****1.1 Trade name of the product**

<b>Trade name</b>	<b>Country (if relevant)</b>
Raid Ant Bait	

**1.2 Authorisation holder**

<b>Name and address of the authorisation holder</b>	<b>Name</b>	W. Neudorff GmbH KG
	<b>Address</b>	An der Mühle 3 31860 Emmerthal Germany
<b>Authorisation number</b>	IE/BPA 70337	
<b>Date of the authorisation</b>	31/10/2014	
<b>Expiry date of the authorisation</b>	31/10/2022	

**1.3 Manufacturer(s) of the product**

<b>Name of manufacturer</b>	W. Neudorff GmbH KG
<b>Address of manufacturer</b>	An der Mühle 3 31860 Emmerthal Germany
<b>Location of manufacturing sites</b>	As above

**1.4 Manufacturer(s) of the active substance(s)**

<b>Active substance</b>	Spinosad
<b>Name of manufacturer</b>	Dow AgroSciences
<b>Address of manufacturer</b>	Harbor Beach 305 North Huron Avenue 48441 Michigan USA
<b>Location of manufacturing sites</b>	Confidential to Dow AgroSciences, location is available in Doc IIIA of the Spinosad AS CAR

## 2. Product composition and formulation

### 2.1 Qualitative and quantitative information on the composition of the product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Spinosad	<p><b>Spinosyn A</b> 2-((6-deoxy-2,3,4-tri-O-methyl-<math>\alpha</math>-L-mannopyranosyl)oxy)-13-((5-dimethylamino)-tetrahydro-6-methyl-2H-pyran-2-yl)oxy-9-ethyl-2,3,3a,5a,5b,6,9,10,11,12,13,14,16a,16b-tetradecahydro-14-methyl-1H-as-indanceno[3,2-d]oxacyclododecin-7,15-dione</p> <p><b>Spinosyn D</b> 2-((6-deoxy-2,3,4-tri-O-methyl-<math>\alpha</math>-L-mannopyranosyl)oxy)-13-((5-dimethylamino)-tetrahydro-6-methyl-2H-pyran-2-yl)oxy-9-ethyl-2,3,3a,5a,5b,6,9,10,11,12,13,14,16a,16b-tetradecahydro-4,14-dimethyl-1H-as-indanceno[3,2-d]oxacyclododecin-7,15-dione</p>	Active substance	<p>Spinosad: 168316-95-8</p> <p>Spinosyn A: 131929-60-7</p> <p>Spinosyn D: 131929-63-0</p>	434-300-1	0.0166 (pure: 0.015 %w/w = 0.168 g/L Spinosad)
Confidential (see Appendix IV)		Non-active substance <sup>1</sup>			

### 2.2 Type of formulation

Other liquid to be applied undiluted [AL], ready to use formulation

<sup>1</sup> Non-active substance(s), of which knowledge is essential for proper use of the product. In the SPC in the application the applicant shall indicate also the exact function (e.g. solvent, detergent, preservative, pigment, etc.). In the SPC which will be disseminated this information will not be provided but limited to non-active substance.

**3. Authorised use(s)**

<b>Product Type</b>	PT18 (Insecticide)
<b>Where relevant, an exact description of the authorised use</b>	A ready to use AL formulation not intended for further dilution, containing spinosad (0.0166% w/w or v/v), intended for indoor and outdoor use in residential houses and adjacent areas like balconies and terraces against ants by professional and non-professional users.
<b>Target organism (including development stage)</b>	I.3.10 <i>Formicidae</i> (Ants) I.3.10.3 Formicinae (Garden Ant – <i>Lasius niger</i> ) II.1.1 Eggs II.1.2 Larvae II:1.4 Pupae II.1.5 Adults
<b>Field of use</b>	IV.1 Indoor use IV.1.3 To be used in/at IV.1.3.2 Households/private areas IV.2.Outdoor use (adjacent to residential areas. Includes balconies or terraces)
<b>Application method(s)</b>	VI.6 Bait application VI. 7.2 In bait boxes
<b>Application rate(s) and frequency</b>	Raid Ant Bait contains 0.168 g Spinosad / L as active substance. It is to be applied undiluted by placing metal boxes containing this product near the formicary. Max. 2 baits stations containing 10 mL of undiluted product, equivalent to 0.00168 g Spinosad (per box) should be used per placement / terrace or balcony or indoor.
<b>Category(ies) of users</b>	V.1 Non Professional/General public V.2 Professional
<b>Pack sizes and packaging material</b>	Ready-to-use box aluminium container (70/73/20.5 mm) containing a pad where 10 ml of formulation are placed.Please see table below.

**Table I – Packaging**

<b>Packaging type/description</b>	<b>Packaging material<sup>1</sup></b>	<b>Pack size</b>
Ready-to-use box aluminium container (non-refillable)	Container: aluminium container (70/73/20.5 mm)	Individual: 10ml (up to 2 containers in on outer packaging, each filled with 10mL)

Table II – Authorised uses

PT	Target Organism	Stages of development	Mode of Action	Usage area	User category	Usage method	Usage target	Dosage
18	I.3.10 <i>Formicidae</i> (Ants) I.3.10.3 <i>Formicinae</i> (Garden Ant – <i>Lasius niger</i> )	II.1.1 Eggs II.1.2 Larvae II:1.4 Pupae II.1.5 Adults	III.1.1 Ingestion bait III.2.1 Kill effect III.3.3 Can control entire colonies	In and around buildings	V.1 Non Professional/General public V.2 Professional	Concealed placement: in a non-refillable bait station.	VII.1 Stored product protection/food protection VII.2 Health protection VII.3 Material protection (e.g. historical buildings, technical objects)	20 ml (2 containers each containing 10 mL)

#### 4. Hazard and precautionary statements<sup>2</sup>

Classification and labelling of the product according to the Regulation (EC) 1272/2008

<b>Classification</b>	
Hazard category	N/A
Hazard statement	N/A
Specific Concentration Limits	None
M factors	N/A
<b>Labelling – Please refer to Annex III for additional labelling requirements.</b>	
Signal words	None
Hazard statements	EUH208 Contains a mixture of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol- . May produce an allergic reaction
Precautionary statements	P102 Keep out of reach of children. P273 Avoid release to the environment P501 Dispose of contents/container in accordance with national regulations.
Note	Pictogram – N/A

#### 5. Directions for use

##### 5.1 Instructions for use<sup>3</sup>

- For the control of ants Raid Ant Bait is filled in a bait station. These containers are placed in the proximity of the formicary or directly onto ant trails.
- Always read the label before use and follow the instructions provided.
- Avoid all unnecessary exposure, in particular avoid inhalation. Risk of asphyxia.
- Safe working practices and safe systems of work must be in place to ensure minimum risk.
- The treatment must be conducted in an area that allows for quick and easy ventilation of that area in case of accident or emergency.
- Avoid contamination of feed, water and, feeding and drinking equipment.
- **FOR USE ONLY AS AN INSECTICIDE**
- **USE APPROPRIATE PROTECTIVE CLOTHING**
- When used outdoors, ensure the product is applied to areas that are inaccessible to wet washing or wash-out by rain
- Avoid contact with skin and eyes
- Wash thoroughly with soap and water after handling the product
- Infested areas should be carefully inspected to determine overall infestation levels, locations of harbourage sites and most appropriate application points
- Bait placements should be inspected periodically for consumption and reapplied as necessary

<sup>2</sup> For micro-organisms based products: indication on the need for the biocidal product to carry the biohazard sign specified in Annex II to Directive 2000/54/EC (Biological Agents at Work).

<sup>3</sup> Describe the necessary instructions for use like for example: period of time needed for the biocidal effect; the interval to be observed between applications of the biocidal product or between application and the next use of the product treated, or the next access by humans or animals to the area where the biocidal product has been used, including particulars concerning decontamination means and measures and duration of necessary ventilation of treated areas; particulars for adequate cleaning of equipment; particulars concerning precautionary measures during transport; precautions to be taken to avoid the development of resistance.

**5.2 Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

**First Aid:**  
**GENERAL:** In case of accident, suspected exposure or if you feel unwell, seek medical advice immediately (show the label where possible). Ensure of fresh air. In case of contact with skin wash off immediately with plenty of water. In case of contact with eyes rinse thoroughly with plenty of water and seek medical advice. Consult a physician if symptoms appear. No product specific symptoms known.

**Note to Physician:** Treat symptomatically.

**Poison Information:** For information or to report a poisoning incident contact The National Poisons Information Centre, Beaumont Hospital, Dublin (01-8092166), retain the label for reference.

**5.3 Instructions for safe disposal of the product and its packaging**

This material and its container must be disposed of safely.  
 Disposal of packaging remains of unused product and dead insects in accordance with local regulations.  
 If required, consult a professional waste operator or local authority.  
 Small amounts out of private households should be given away to the official disposal sites.  
 Totally emptied packaging may be treated as household waste.

**5.4 Conditions of storage and shelf-life of the product under normal conditions of storage**

Store locked up in the original container.  
 Store away from food, drink and animal feeding stuffs.  
 Keep out of reach of children.  
 Store in a cool, dry, well-ventilated place.  
 Recommended storage temperature: 20°C.  
 Shelf-life: 2 years

**6. Other information**

**Name and address of the marketing company (if different from Authorisation holder):**  
 N/A

**Batch number and expiry date:** Must be printed or embossed on label or packaging

**ANNEX III**

**Other Labelling Requirements**

**Please note:** Article 69 of the BPR indicates the minimum labelling requirements for the product. Authorisation holders may place additional label information as they consider necessary, which must be in accordance with relevant labelling legislation. Any claims made must be supported by data.

**Special labelling provisions for Ireland**

Special labelling provisions for Ireland

**Use Biocides Safely and Sustainably.  
It is illegal to use this product for uses or in a manner other than that prescribed on this label.  
Full statement of use must be placed on the label.**

**Resistance Information -**

N/A

In the framework of resistance management, it is recommended to apply not more than 4 treatments per a two week period and the recommended dosage should not be reduced. Exchange the use of Raid Ant Bait (active substance: Spinosad) with products that are based on active substances from another chemical group.

Additional safety Information:

To avoid risks to human health and the environment, comply with the instructions for use.
